**Re: In the Matter of Petition of USTelecom for Forbearance Pursuant to
47 U.S.C. Section 160(c); WC Docket No. 18-141; Category 1**

Dear FCC,

We want broadband competition - fair competition. We want choice and we want the ability to choose our own providers regardless of the area. Our society is based on capitalism - on the premise that consumers vote by their dollars and where they choose to spend their money. We want to be able to choose from both the big companies and the little guys. For example, the only vendor in my area that provides fiber Internet is a 'little guy', not AT&T, not Comcast. I chose this provider instead of the big guys because I get far superior service and stability with my fiber provider - not to mention speed. The FCC has already done a disservice with Net Neutrality. Don't make the same mistake twice. Don't remove the protections given to smaller ISPs, because they are our community's lifeblood.
